

Checklist for Fence Permit

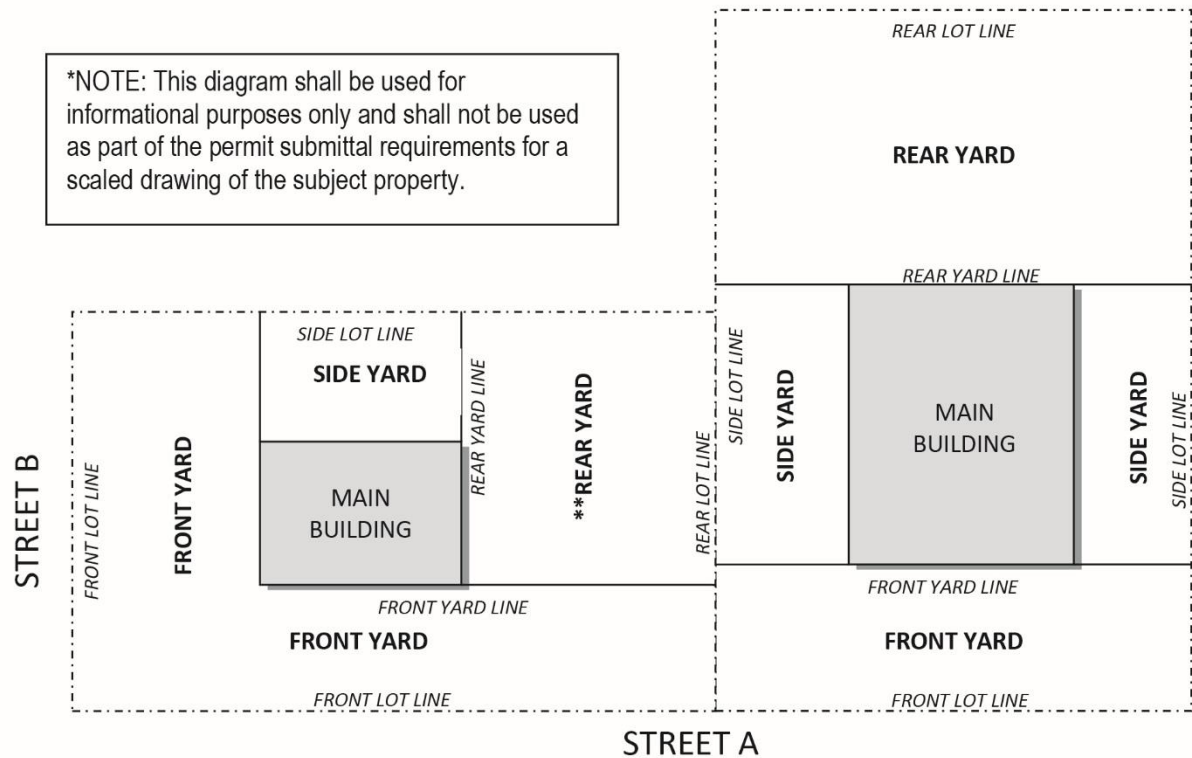

1. I understand that the City's approval of this requested Fence Permit only authorizes work to be completed on the permitted property in accordance with the approved fence plan, and that the subject fence must be installed within the permit holder's own property lines.
2. I understand that the permit holder assumes all liability if a fence is installed across a property line or easement.
3. I understand that any field modifications from the approved fence plan must be approved by city staff prior to installation.
4. I understand that a fence shall not impede the flow of stormwater onto or off the property. Stormwater must flow under or through the fence installation.
5. I understand that the finished or decorative side of a fence must face out towards neighboring properties. Fence hardware, posts, framing, etc. must face in towards the interior of the permit holder's property.
6. I understand the fence installation must commence within six months of permit approval and shall be completed within twelve months.
