Please accept our sincere gratitude for your generous contributions for the Fire Prevention Week Educational Program. Without your charitable support we would not have had the ability to provide the fire safety & prevention materials to the 1,012 children attending schools in Crestwood this year.

Over the past few decades, the loss of life from fire has dropped considerably, but we still have a long way yet to go. I am a firm believer that the main reason for this decrease is due to the Fire Prevention Education directed at our school age children. As they grow up and start families, the lessons learned of fire safety & prevention are put into practice. You can be proud of the fact that you will have a direct effect on saving lives throughout our community.

Thank you for your caring and willingness to help us carry out our mission of keeping our community and our children safe from fire. Your support for this year’s Fire Prevention Week Program is greatly appreciated.

Sincerely,

Dave A. Oliveri

Fire Chief
